The rugged TwoView 2™ provides an operator with the maximum amount of visual information while occupying minimal rack space (2U high).

The dual flip-up displays operate on separate video inputs. The secondary 17.3″ display extends to the left and can be positioned to suit the operator. The military-grade backlit keyboard includes a trackball and three mouse buttons.

Designed to comply with multiple military standards, the TwoView 2 is also an ideal choice for industrial and special purpose commercial applications.

FEATURES

» Two high resolution 17.3" LCDs (other display sizes and special designs available)

» Standard video inputs include VGA, HDMI, HD-SDI and DisplayPort

» Military-grade keyboard is red backlit and includes a 1-3/8" trackball (green backlit keyboard available)

» Locking HDMI connectors

» Low profile occupies only 2U (3.50") of vertical rack space and 22" of depth when stowed

» Drawer mounts directly to EIA-310 RETMA 19" racks via solid-bearing, locking slides

» Rugged, all-metal construction designed to satisfy industrial and military requirements

» 80–264 Vac input internal power supply

» Easy access to OSD keypads on keyboard tray

» Designed, manufactured, tested, serviced in the U.S.A.

OPTIONS

» Compliance with radiated and conducted EMI requirements (e.g., MIL-STD-461, TEMPEST)

» Ability to view and operate the displays in high ambient lighting or direct sunlight

» Keyboard/trackball options: environmentally sealed, various colors of keycaps and backlights, NVIS-compatible backlighting, custom firmware, and more

» Extended warranties
